Is This the Kind of Bank You Want to Bank With?

The Munsey Trust Company has a capital of \$2,000,000. It started right, with its capital fully paid in before it opened its doors for business. Capital enough to make it as solid as

-It pays 2% interest on checking accounts.

—It pays 3% interest

on ordinary savings accounts. - It pays 4% interest on special savings accounts.

Interest compounded monthly (twelve times a year), on the 2% accounts and four times a year on the 3% ac-counts; twice a year on the 4% accounts, and interest so figured that the depositor gets a "Square Deal." There are no rules, no penalties, no subterfuges with us that whittle subterfuges with us that whittle down the rate of interest; and your money draws interest every day it is in The Munsey Trust Company, now-ever long or short the time, and every business day in the

year in deposit day.

The Munsey Trust Company is a scrious, substantial bank, conducted on sound business lines. Its methods are clean, clearcut and straightforward. all men the same-treats the big man no better than the little man, and treats all alike, with well considered

ourtesy.

If this is the kind of bank that appeals to you, we should be glad to have you open an account with us. Measured from every angle—the inter-est we pay, and the way we figure interest, and the strength and substantiality of The Munsey Trust Company is there any other bank any where where you can do well? Think this over-it very much worth your while.
